## SPIRAL TREE WRAP

Experience has shown that wrapping the trunks of transplanted trees greatly reduces losses due to weather conditions. Wrapping also protects trees against damage from borers and rodents.

**SPIRAL TREE WRAP** is a creped craft paper made up of two sheets of 30 lb. basis with a layer of asphaltum between them.

**SPIRAL TREE WRAP** is long lasting. It may be applied to trees in fall or spring after transplanting and should be removed about October 15th.

After the tree trunk has been wrapped with **SPIRAL TREE WRAP**, it is securely held in place by a criss-cross tie of binder twine or similar cord.

Sold in rolls about 100 feet long, 7 inches in diameter.

	1-9 rolls	10-99 rolls
3" wide.....	\$ .30 per roll	\$ .25 per roll
5" wide.....	\$ .40 per roll	\$ .32 per roll
7" wide.....	\$ .50 per roll	\$ .38 per roll

The average trunk is wrapped about 7 ft. high and the wrap is overlapped about half its width.

The following table is only approximate.

# You get all the roots when you buy Ilgenfritz Fruit Trees

A front view of the new Ilgenfritz Power Digger. Of course it saves time but what's more important it digs the trees with more roots than we ever were able to get before.

*This rear view shows the digger in action. Notice the size of the blade.*

## THE ILGENFRITZ FIRMER

**A well known implement in use throughout the country.**

**STOP HEAVY LOSS** of newly planted stock by the proper firming of soil. This firmer is constructed so that additional weight can be added when necessary insuring uniform packing of soil about roots at all times. Easily steered by foot pedals. Narrow wheels cut through loose top soil and pack the earth about the roots.

**\$85.00 F.O.B. MONROE, MICH.**

# THE ILGENFRITZ TWO ROW OPENER

**SPEED UP SUMMER CULTIVATION** by proper spring planting. Accurate spacing between pairs of rows enables you to use standard two row tractor-cultivators saving time and money.

Rows are equal distance apart their entire length.

Easily attached to any tractor.

All steel construction.

\$175.00 F.O.B. MONROE, MICH.

We can also still supply the Ilgenfritz Single Row Opener.

\$95.00 F.O.B. MONROE, MICH.

# DOWAX

## PROTECTS TREES AND PLANTS

### USE DOWAX FOR:

Spraying of evergreens in early October to prevent winter windburn and the browning of foliage and needles.

Spraying of fall planted deciduous trees, preventing winter windburn.

Spraying of late spring planted deciduous plants already in foliage, will check dehydration and prevent wilting.

Coating Christmas trees to retard needle-fall.

### EASY TO APPLY:

Dilute DOWAX with three parts of water and apply with a knapsack sprayer for best results.

DOWAX was developed by Michigan State Experiment Station; and the Dow Chemical Company are sole producer under special manufacturing and sales licenses.

DOWAX weighs seven pounds per gallon and is supplied as follows:

30 gal drums—210 lbs. at \$ .18 lb.

10 gal. drums— 70 lbs. at .22 lb.

5 gal. drums— 35 lbs. at .26 lb.

1 gal. cans — 7 lbs. at .30 lb.
